To whom it may concern,

Several years ago Jose Castaneda began delivering prescriptions for our pharmacy while working for another delivery company. Our clientele quickly came to appreciate his courteous and dependable nature. On occasion when Jose was working another route, our customers would call to see if he was ill and when he would return. We began to rely on his service as a trademark of our integrity and obligation to our customers. Jose simply was far and away the best representative of our company for delivery and customer service outside the store.

Jose later ventured out on his own and established Rapid Rx Delivery! We could not move fast enough to retain his services and discontinue our former delivery service. Should your business be in need of a courier service that is responsible, reliable, courteous, and efficient, we at Sav-on highly recommend Rapid Rx Delivery and Jose Castaneda. Your business, customer service, and clientele will all benefit allowing maximum profitability. Good customer service is at a premium in the market place today. Jose and Rapid Rx Delivery will undoubtedly fill the bill for you.

Sincerely,

John Favour, RPh.
